

## Questionnaire

### ContiLift 20' & 40' ISO Container Handling Units Series **CHU/TBS**

**In order to evaluate the most suitable product for your purpose, we kindly ask for your support by answering the following questions:**

1. Which type(s) of ISO Containers should be handled (20 ft. \* 30 ft. \* 40 ft. \* 45 ft.) ?
2. Do you consider to operate the ISO Container Handling Unit(s) also with High Cube (HC) ISO Containers or only with Standard (ST) ones ?
3. Do you want to handle payloads with „Dangerous Goods“ acc. to ADR-S ? If so, which Class & UN number ?
4. Should the ISO Containers be also tilted/dumped for emptying (**Series LT**) or only be loaded and unloaded (**Series L**) ?
5. Which max. lifting capacity – incl. ISO Container - do you require (Standard version: 35 tons) ?
6. Should the ISO Container Handling Unit(s) be installed onto a truck chassis (suitable for 20') or onto a semi-trailer chassis (suitable for 20'/30'/40'/45') ?
7. Do require the ISO Container Handling Unit(s)
  - a) as a Mounting Kit for self-assembling onto a suitable semi-trailer or truck chassis on site **or**
  - b) as a fully mounted, complete unit with semi-trailer = Fit for Purpose ?
8. In which country should the ISO Container Handling Unit(s) be operated ?
9. Which is the max. permitted length (OAL in mm) of a tractor/semi-trailer unit in your country ?
10. What is the max. permitted width (in mm) of a tractor/semi-trailer unit in your country ?
11. Which is the max. permitted weight (GVW in tons) of a tractor/semi-trailer unit in your country ?

**No. 89, 6F, Chingdong St., 70144 Tainan/Taiwan ROC \* Website: [www.eos-enviro.com](http://www.eos-enviro.com)**

**Ph.: +886 6 7873 708 \* Cell Phone: +886 9 3334 6753**

**Business No. 28980981 \* Registered Im- & Exporter by MOEA/BOFT**

**Email: [eos@eos-enviro.com](mailto:eos@eos-enviro.com)**

12. What is the max. permitted height (in mm) of a tractor/semi-trailer unit in your country ?
13. Does the intended tractor for the ISO Container Handling Unit(s) already have a suitable Power Take Off (P.T.O.) ?
14. Is the intended tractor for the ISO Container Handling Unit(s) already equipped with a suitable hydraulic oil pump with an oil flow of 80 l/min and a max. working pressure of 300 bar ?
15. In the case, that the ISO Container Handling Unit(s) should be supplied as a „Mounting Kit“ and be self-assembled onto an already available/used semi-trailer or truck chassis on site, could you provide us with a technical drawing, technical specification and photo of the intended chassis, please ?
16. In the case, that the ISO Container Handling Unit(s) should be supplied as a „Mounting Kit“ and be self-assembled onto an already available/used semi-trailer or truck chassis on site, what is the max. permitted weight (GVW) and payload of the chassis respectively ?
17. Do you have a specific demand concerning the colour(s) of the ISO Container Handling Unit(s) ? If so, please, refer to the RAL List of available colours/tones.
18. Do you require additional appliances and/or accessories ?
19. Do you have further requirements ?
20. Your comments:

21. Company & Address:

22. Contact Person:

23. Email/Skype:

24. Date:

Thank you very much for your cooperation filling out this questionnaire, which is helpful for us !
