

Options/Accessories for ContiLift Hook Lift Modules

Control Systems

- Pneumatic Control in Driver's Cabin
- Radio Remote Control
- Hydraulic Control with Joystick in Driver's Cabin

Locking Systems

- Additional Front Lockings/ADR-/GGVS-Transport
- Internal, Hydraulically Operated Rear Lockings
- Hydraulically Adjustable Locking System (660 mm – 2,900 mm)
- MultiRail System for Bins with Skids of 660 mm & 1,060 mm

Hydraulic System

- Additional Hydraulic Control Module (without pipes)
- Additional Hydraulic Control Module (with pipes/hoses)
- Double Speed Hydraulic Valve
- Hydraulic Switch for Trailer & Crane
- Piston Hydraulic Pump for HL 003
- Piston Hydraulic Pump for HL 005 & HL 006
- Piston Hydraulic Pump 46 ccm (HL/HLA 008 – 014)
- Piston Hydraulic Pump 64 ccm (HL/HLA 014 – 030)
- High Pressure Filter for Hook Lifts with > 12 tons
- Electric/Hydraulic Main Distributor Block (HL 5 & HL 6)
- Trailer Control Device on Main Hydraulic Block
- Additional Tipping Cylinder for Telescopic Hook Lift Modules
- Hydraulic Oil Tank for Horizontal or Vertical Installation

No. 89, 6F, Chingdong St., 70144 Tainan/Taiwan ROC * Website: www.eos-enviro.com

Structure

- Frame length up to 8,500 mm
- Frame width up to 2,900 mm
- Rear Lift System with Pneumatic Safety Device for Hook
- Manually Adjustable Hook Post
- Hydraulically Adjustable Hook Post
- Versions acc. to CHEM Standards T.S. 13 & 17, ADRs 3rd Edition & DIN 30722
- Pierced Frame with Fitting Plates/Brackets (finally painted)
- Hydraulically Operated Rear Roll Stabilizer
- Spring Stabilizing Cylinders

Coating/Painting

- Bi-component Painting (acc. to RAL-List on your demand)
- Salt-resistant coating/painting

Safety Systems

- Pneumatic Safety Device/Latch for Hook
- Working Light (controlled by remote control)
- Rear Camera with Monitor in driver's cabin
- Manually Operated Rear Bumper
- Hydraulically operated Rear Bumper

Miscellaneous

- Weighing System (4 cells/Monitor & Printer in driver's cabin)
- Pneumatic Compressor 12/24 V (for trucks without air system)
- Electric Kit for Rear Anti-Shock Bar
- Semi-Automatic Lubrication System
- Automatic Pump for Lubrication System
- Tool Boxes (PVC/Aluminium)
- and more.....

Additional options and appliances on request available.

Do you have other requirements ? - Please, tell us your demand !
